PERSONAL SUMMARY

I am Vraj Patel, a dedicated and curious Data Analytics student with a Bachelor's degree in Computer Applications (BCA). I am currently expanding my skills in data analysis, visualization, and statistical modeling, with a strong interest in tuming complex data into actionable insights. I enjoy working with tools like Excel, SQL, and Python, and I'm eager to contribute to data-driven projects that solve real-world problems. My goal is to grow as a data professional and make a meaningful impact through smart, evidence-based decision-making.
